## EDUCATION

### SAINT LOUIS UNIVERSITY

Baguio City, Benguet  
2026

Bachelor of Science in Information Technology

General Weighted Average (GWA): 92.33 (Magna Cum Laude); Dean's Lister, 2022–2026

Relevant Coursework: Web Technologies, Software Engineering, Application Development, Data Structures & Algorithms, Data Analytics, Data Mining, Information Management, IT Resource Management

## WORK EXPERIENCE

### ELINNOV TECHNOLOGIES, INC.

Makati City, Metro Manila

Software Engineering Intern

Jan 2026 – May 2026

- Engineered full-stack features across the full software development life cycle for 2 internal company projects – a job application system and a WordPress Careers Site – using AI-assisted coding tools within an Agile environment, enabling the projects' launch to production and streamlining the HR team's applicant screening process.
- Developed backend-integrated solutions using Google Cloud APIs, PDF processing, and AI-powered automation and data analysis, while improving the UI/UX design, maintaining databases, and optimizing application forms for a better applicant experience.
- Conducted comprehensive testing using Playwright, collaborated with the Quality Assurance Team to improve application quality and performance, and contributed to thorough project documentation throughout the development lifecycle.

### SAINT LOUIS UNIVERSITY – COMMISSION ON ELECTIONS

Baguio City, Benguet

IT Committee

Oct 2024 – Dec 2025

- Collaborated with a team of developers to maintain and improve the SLU COMELEC web application, enhancing functionality and ensuring a user-friendly experience.

## AWARDS AND CERTIFICATIONS

- Magna Cum Laude
- 2025 BPI-DOST Innovation Awards Finalist (CordiMap) | [View Article](#)
- Test of Practical Competency in IT (TOPCIT) – Competency Level 3 (Competent) | [View Certificate](#)
- Foundational C# with Microsoft – freeCodeCamp | [View Certificate](#)

## PROJECTS

### HYDROHUB: TIME-SERIES FORECASTING MODEL FOR INTERACTIVE WATER BALANCE MAPPING IN THE CORDILLERA ADMINISTRATIVE REGION

2025-2026

- Led an 8-member team to design and develop a full-stack water balance forecasting platform for the Cordillera Administrative Region.
- Implemented a time-series forecasting model (XGBoost) and an interactive map to visualize predicted water balance levels, built with React.js, Node.js, Python, Tailwind CSS, Leaflet, and MySQL.
- Utilized an Iterative SDLC model, continuously developing while incorporating stakeholder feedback to meet project requirements.

## SKILLS

### TECHNICAL SKILLS

- Frontend:** JavaScript, React.js, Next.js, Tailwind CSS, Vite, HTML/CSS
- Backend:** Node.js, Python, Java, C#, PHP, Express.js, ASP.NET, JWT, REST APIs
- Databases:** MySQL, PostgreSQL
- Developer Tools:** Docker, Git, GitHub, Figma, WordPress, VSCode

### SOFT SKILLS

- Communication, Problem Solving, Adaptability, Attention to Detail
